Dwarfs4MOSAIC Repository

USER'S QUICK START GUIDE

Version 1.3 - September, 2026

About this guide

Institution: Universidad Complutense de Madrid
Author: Noelia Grande Zafrilla
Publication date: September, 2026
Version: 1.3
Contact: Principal Investigator of Dwarfs4MOSAIC
<https://guaix.ucm.es/dwarfs4mosaic>

Intended Audience

This guide is designed for researchers and users without administrative privileges. It explains how to navigate and use the **dwarfs4MOSAIC** repository platform as a non-administrative user, providing step-by-step instructions.

Document Scope

This guide describes the **Dwarfs4MOSAIC** web application.

The system is considered stable and may evolve over time. This guide will be updated when relevant changes occur; however, minor discrepancies between the documentation and the current state of the application may exist.

Contents

5	Platform Information	5
6	Science	6
7	Logging Out	7
8	Support	8

1. Accessing the Platform

To start using dwarfs4MOSAIC repository, open your preferred web browser and navigate to the project URL, <https://guaix.ucm.es/dwarfs4mosaic-data>. It is recommended to use modern browsers such as *Chrome*, *Firefox*, or *Edge* for optimal compatibility with all platform features. Once the page loads, you will reach the welcome page.

Figure 1. Dwarfs4MOSAIC welcome page.

Click the **LOGIN** option at the top-right corner of the page to access the login form and enter your assigned username and password in the corresponding fields.

Figure 2. Login form.

If you forget your password or experience login issues, please contact *Principal Investigator of Dwarfs4MOSAIC* at <https://guaix.ucm.es/dwarfs4mosaic> to request a new password.

2. User Options

After logging in, you will be directed to the *Home* page, which displays a welcome message along with several navigation options, and provides quick access to the main platform features.

Figure 3. Navigation links for a generic user.

- **Home:** redirects to the main page (see [Chapter 3. Navigating the Home Page](#)).
- **Info:** access to platform information (see [Chapter 5. Platform Information](#)).
- **Science:** access to science information (see [Chapter 6. Science](#)).
- **Log out:** option to manually log out of the platform (see [Chapter 7. Logging Out](#)).

3. Navigating the Home Page

The *Home* page shows a table with the targets you have permission to view.

You are here: Home

Research Objects
List of celestial objects intended for study, along with details and relevant properties for each object.

Figure 4. Home page.

Each target is displayed with several fields that provide key information at a glance:

Image: target's associated image, if available.

Name: unique identifier of the target.

Type: category of the astronomical object.

Right Ascension: celestial coordinate along the equatorial plane [hh:mm:ss].

Declination: celestial coordinate perpendicular to the equatorial plane [dd:mm:ss].

Apparent Magnitude: brightness of the target as observed from Earth.

Redshift Value: measured redshift of the object.

Redshift Error: error for the redshift of the object.

Angular Size: apparent size of the target in the sky.

Visibility Semester: semester when the target is visible.

Observing Run: name of the observing run(s) the target belongs to.

Instrument: instrument used to acquire data for the target.

Data Files: list of associated files available for download (see [Chapter 4. Downloading Files](#)).

Comments: additional information.

Website: link to an external astronomical database or information page related to the target.

4. Downloading Files

On the *Home* page, locate the target of interest. In the **Data Files** column, you will see the available files along with the download icon . Clicking this icon opens the file download view.

Target: NGC 6822
Available datafiles for downloading. Please select files to download.

☒	FILE NAME	SIZE
☒	final_cube_GTC4-23ITP_OB0006.fit	5 bytes
☒	final_cube_GTC4-23ITP_OB0009.fit	5 bytes

Download

Figure 5. File download view.

This view displays a table containing all the files associated with the selected target and their respective sizes. You can select one, multiple, or all files at once. If only a single file is selected, it will be downloaded directly. If multiple files are selected, a *.zip* archive containing all selected files is generated. The download process is handled directly by your web browser.

5. Platform Information

This view provides information about the platform. All information is kept up-to-date by the Administrator to ensure accuracy.

The screenshot displays the 'Platform Information' page. At the top, a dark blue header bar contains the text 'You are here: Platform Information'. Below this, the main content area has a light gray background. It features a bold heading 'Platform Information' followed by a paragraph stating that Dwarfs4MOSAIC is a web platform for managing, preparing, and analyzing observational data and scientific targets. A subsequent paragraph describes the platform's role in facilitating the observational workflow. Below this is a section titled 'Platform Overview' which contains a bulleted list of three items: management of scientific targets, preparation of observational data, and access to platform resources.

You are here: Platform Information

Platform Information

Dwarfs4MOSAIC is a web platform designed to support the management, preparation, and analysis of observational data and scientific targets.

The platform provides tools and resources to facilitate the different stages of the observational workflow, from target definition to the preparation and management of related information.

Platform Overview

- Management of scientific targets and related information.
- Preparation and organisation of observational data.
- Access to platform resources and documentation.

Figure 6. Platform information view.

6. Science

This view provides relevant information about the science related to the content of the platform. All information is kept up-to-date by the **Administrator** to ensure accuracy.

The screenshot shows a web interface for the 'Science' section. At the top, a dark blue header bar contains the text 'You are here: Science'. Below this, the main content area has a light gray background. It starts with the heading 'Science' in bold. The first paragraph states: 'This section provides an overview of the scientific background related to the content and objectives of the Dwarfs4MOSAIC platform.' The second paragraph says: 'It introduces the main scientific concepts relevant to the study of galaxies and their properties, together with the observational challenges addressed by the platform.' This is followed by the heading 'Scientific Background' in bold, and a bulleted list with three items: 'Galaxy formation and evolution.', 'Properties of dwarf galaxies.', and 'Observational studies of faint astronomical objects.'

Figure 7. Science view.

7. Logging Out

To securely exit the platform, click the **LOG OUT** option located at the top-right corner of the page. This will end your session and return you to the welcome page. Your session will also automatically expire after 15 minutes of inactivity, requiring you to log in again. This helps protect your account on shared computers.

 Always log out when you finish using the system, especially on shared or public computers, to protect your account and data.

8. Support

For any questions, technical issues, or to request a new password, please contact *Principal Investigator of Dwarfs4MOSAIC* at <https://guaix.ucm.es/dwarfs4mosaic>.

Response times may vary, and users are encouraged to provide a clear description of the issue.

 Always keep your login credentials secure and do not share them with others.
